

Peer-2-Professional Guidance App - Modules Report

This report details the implementation status and core functionalities of the 9 working modules within the Peer-2-Professional (P2P) Guidance Platform. The application aims to facilitate seamless mentorship and professional networking.

Module Name	Primary Functionality	Status
User Auth & Profile	OTP verification, Google OAuth, Profile Customization	Implemented
Session Management	15-min rounding, Rs 500/15m pricing, Scheduling	Implemented
Smart Matching	Tag-based relevance scoring, Mentor recommendations	Implemented
Google Meet	Automated link generation, Personal link support	Implemented
Notifications	In-app & email alerts for bookings/payments	Implemented
Live Chat	WebSocket real-time messaging with AJAX fallback	Implemented
Payments	Secure screenshot verification workflow	Implemented
Networking	Connection requests, network hub management	Implemented
Feedback & Rating	Verified 1-5 star reviews & recommendations	Implemented

1. User Authentication & Profile

Features OTP-based email verification and Google OAuth2 integration. Users can create professional profiles as mentors or mentees, specifying skills, expertise, and availability.

2. Session Management

A robust booking system that rounds time-slots to 15-minute intervals. Sessions are priced at Rs. 500 per 15 minutes, with real-time availability tracking.

3. Smart Matching Algorithm

Peer-2-Professional Guidance App - Modules Report

Uses a tag-based scoring system to match mentees with the most relevant mentors based on skills and interests.

4. Google Meet Integration

Automatically generates meeting links upon payment verification. Mentors can also provide persistent personal meeting links.

5. Real-time Notifications

Triggers automated alerts for session bookings, payment status changes, and connection requests.

6. Live Chat System

Powered by Django Channels for real-time messaging, with a robust AJAX polling fallback for consistent connectivity.

7. Secure Payment Workflow

A verification flow where mentees upload screenshots of transactions, which are then approved by mentors/admins.

8. Professional Networking

Allows users to send connection requests and build a professional network within the platform.

9. Feedback & Rating System

Peer-2-Professional Guidance App - Modules Report

Enables mentees to rate mentors and provide public feedback after completed sessions to ensure quality and trust.
